PROFESSIONAL SUMMARY

Entry-level Data Analyst with hands-on experience in Python, SQL, Excel, Power BI, data cleaning, exploratory data analysis, statistics, and machine learning. Skilled in SQL joins, subqueries, aggregate functions, views, stored procedures, and analytical reporting. Developed projects in fraud detection and student management using Python, MySQL, Pandas, NumPy, and Scikit-learn. Seeking to apply analytical skills to solve business problems using data.

TECHNICAL SKILLS

Excel, PowerBI, SQL, Python(Fundamentals), PromptEngineering(Fundamentals) Tools: ChatGPT, Google Gemini

EDUCATION

Electronics and communication engineering — 2026
Geetanjali institute of science and technology

Intermediate MPC — 2020 - 2022
Sri Chaitanya junior college

EXPERIENCE

Python Full Stack Intern virtual — May 2025 – Jul 2025
ExcelR EdTech Pvt Ltd. & APSCHE

- Developed and deployed a responsive full-stack web application integrating front-end, back-end, and database modules.
- Improved project efficiency by 20% through optimized Python and SQL queries

PROJECTS

Student Management System – SQL Project — SQL

- Designed a relational database with Departments, Students, Instructors, Courses, and Enrollments using primary keys, foreign keys, and data constraints.
- Wrote SQL queries using INNER JOIN, LEFT JOIN, subqueries, aggregate functions, GROUP BY, HAVING, ORDER BY, and LIMIT.
- Created views for student-course enrollment, course-instructor relationships, student course counts, and enrollment reporting.
- Developed stored procedures with input parameters to retrieve students by course, students by department, department-wise student counts, course details, and students registered after a given year.
- Performed analytical reporting to identify top courses, highest-enrollment departments, instructors teaching the most courses, semester-wise enrollments, and highest-credit courses.
- Implemented INSERT, UPDATE, DELETE, and verification queries to manage and validate student-management data.

Sales Dashboard & Data Analysis – Excel — Excel

- Created an interactive Sales Dashboard using Microsoft Excel, PivotTables, PivotCharts, and Slicers.
- Analyzed sales, profit, quantity, discount, region, category, payment method, and monthly sales data.
- Developed KPI cards and interactive visualizations to identify sales trends and category/region performance

CERTIFICATIONS

- Data Visualization with Power BI — Microsoft & Great Learning
- Data Management Systems (DBMS)
